

TRICOM Pass Through Tool

Overview

Pass-Through Connectors are used by network installers/technicians in order to terminate network cables with a pass-through crimper. They are used in households and businesses and are ideal for terminating a round network cable or even replacing an existing connector.

Features & Benefits

- Allows for easy termination on CAT6/6a/5e cables
- Easy to verify proper wire color/sequence
- Reduces the distance between wire twists and contacts, increasing performance
- Gold plated contacts provide long-lasting electrical performance
- Compatible with most pass-through crimp tools
- Compatible with both stranded and solid CAT6/6A/5E cable
